

Demo Practice Guide: Pinless Curved Piecing Demo

I enjoyed my presentation and demos that I had with the Brown Sugar Stitchers Quilt Guild so much!

If you would like to take what you learn and practice here are a few things that you can do to prep to create a few practice blocks. This practice guide will set you up to try the technique making a Quarter Circle, Half Circle and a Full Circle block.

Prep Work:

- Using the attached templates cut out at least one piece of fabric with each template.
- Set up your machine with a quarter inch foot or with a quarter inch setting
- A knee lift on your sewing machine can be helpful (but not necessary)
- Set up your iron with steam if possible (or at least a seam roller or creaser).

If you want to make your practice blocks into a larger project then it may be good to note that:

- One Full Circle Block is a 10" finished block (10.5" unfinished)
- Two Half Circle Blocks makes a 10" finished block (10.5" unfinished)
- Four Quarter Circle Blocks makes a 10" finished block (10.5" unfinished)
